FACT SHEET

Atlantic Crop Enhancement (ACE) Network - Benefits to Growers

What is ACE?

The Atlantic Crop Enhancement (ACE) Network is an Atlantic Grains Council initiative that brings together growers, agronomists, researchers, and industry experts to better understand crop performance and unlock the full potential of your fields.

The ACE program is available for growers of small grains (oats, barley, spring wheat, winter wheat) as well as corn (grain and silage) and soybeans.

Top Reasons to Join ACE

Benchmark Your Performance

- Get detailed comparisons of your crop yields against other farms across the region and beyond. Identify how close your crops are to reaching their yield potential.

Personalised Crop Analysis

- Receive an in-depth report that examines all aspects of your crop's growth — from planting to harvest. Insights include nutrient use efficiency, water availability, soil health, weather impact, and more.

Access to Expert Insights

- Collaborate with leading agronomists and AAFC scientists who analyze your data and offer actionable recommendations. Stay ahead of best practices and emerging technologies.

Improve Your Agronomy

- Understand the key drivers of yield on your farm. Learn what's working well — and what could be improved — to enhance both productivity and profitability.

Join a Community of Innovative Growers

- Become part of a network of forward-thinking farmers who are committed to learning and improving. Share experiences, ideas, and results in a collaborative environment.

FACT SHEET

What's Included When You Join

- Data and sample collection
- Full analytical report including performance benchmarking
- Access to ACE events, networking and workshops
- Opportunity to compete for recognition in annual awards

Is the ACE Right for You?

If you are:

- Interested in improving your yields and returns on crop production
- Interested in evidence-based agronomy
- Looking to benchmark and learn from others

Then ACE is for you!

Why It Matters

- In an era of rising input costs, environmental concerns, and the need for sustainable practices, understanding and improving crop performance has never been more important. The ACE Network gives you the data and support to make informed, profitable decisions — season after season.

Get Involved

- Join today and take the next step in optimizing your yield, enhancing sustainability, and future-proofing your farm. ACE registration is open from early May through to early July.
